WORK EXPERIENCE

DEPUTY

DOUGLAS COUNTY SHERIFF'S OFFICE

01/2021 - 07/2026

- Conducted open-source research across social media, public records, and law enforcement databases to identify subjects, map associations, and corroborate reporting.
- Assessed threat credibility and emerging trends, performing behavioral threat assessments on persons of concern and building mitigation plans with institutional leadership, partner agencies, and mental health resources.
- Produced written analytical products and briefed findings to command staff, school administrators, and interagency partners to drive timely operational decisions.
- Investigated criminal cases end to end — developing leads, conducting subject and witness interviews, preserving evidence, and authoring reports to evidentiary standards.
- Served as an on-site security lead for a 700-student campus, owning threat prevention, managing visitor logs, routine video surveillance and keeping staff up to date with current emergency preparedness.
- Responded as the first on scene Deputy to multiple incidents and crises in 24/7 operations, monitoring CCTV, alarm, and access-control systems while handling confidential and sensitive information.

LOGISTICS SPECIALIST & UNIT ARMORER

U.S. ARMY

12/2015 - 07/2019

- Maintained direct accountability for more than \$1.3M in sensitive, serialized weapons and equipment; controlled issuance and return and conducted recurring inventories and audits with zero discrepancies.
- Passed all compliance inspections with the highest scores in the brigade, demonstrating rigorous adherence to regulatory standards, audit procedures, and governance requirements.
- Received, processed, and issued \$100M–\$150M in parts and materiel across the installation; maintained \$5M–\$10M in on-hand inventory with full traceability using SAP ERP and GCSS-Army systems.
- Produced recurring inventory, readiness, and accountability reporting for unit leadership; identified discrepancies, escalated issues, and drove corrective actions to closure.
- Coordinated service schedules and logistics support across multiple teams and vendors, improving operational processes and sustaining unit readiness.
